

☀ AI-POWERED · PRIVATE, BUILT-IN, NEVER METERED

# Everything your school needs. Easy on the pocket.

Admissions to report cards, fees to payroll, WhatsApp to AI foresight — one platform, four portals, mobile apps for everyone, and a price built for a school's term-fee cash flow.

## 300+

FEATURES

## 40+

MODULES

## 1

PLATFORM

● Configurable for any curriculum, on one platform

## One system. One login. One clear price.

No bolt-ons, no per-module toll-booths, no "mobile costs extra". The intelligence, the apps and the migration are all included — that's the Zelarium way.

### ✓ **GES-native**

3 terms · 30:70 SBA · position-in-class · NaSIA-mapped reports

### ✓ **Mobile Money, UPI & cards**

Parents pay on their phone; the bursar sees it live

### ✓ **Private AI built in**

Zi runs on our own hardware — zero per-use fees

### ✓ **Free migration**

Dry-run preview + one-click safe revert

# Running a school on paper and patchwork costs more than software ever will.

## 40+ paper registers

Admissions files, attendance books, mark sheets, fee ledgers, visitor logs, leave slips — recopied, misfiled, and impossible to total up when the head asks a simple question.

## Fees chased on WhatsApp, one parent at a time

Nobody knows the real arrears picture. Reminders go out by hand, receipts live in a drawer, and collection depends on whoever remembers to follow up.

## No live picture for the owner or head

Enrolment, collections, attendance and results sit in different books and different hands. Decisions wait for a month-end compilation that's stale on arrival.

## Systems that don't talk to each other

A fees app here, an exams spreadsheet there, a separate messaging tool — each with its own login, none sharing data, every gap bridged by re-typing.

## Zelarium replaces all of it with one platform — 300+ features, AI built in, priced for a budget-conscious school.

One database from the admission form to the report card to the fee receipt to the payslip. Every parent, teacher, student and manager on the same system — on web and on their phone — with private AI watching the numbers so you don't have to.

### WHY SCHOOLS TRUST IT

#### Configurable

Exam engine — proven on GES & CBSE, adapts to yours

#### 8

Surfaces — 4 web portals  
+ 4 mobile experiences

#### 24/7

Self-hosted, nightly encrypted backups, proven restore

### AND THE FOUR COMMITMENTS BEHIND IT

#### Mobile is never an extra

All four apps — parent, teacher, student, management — in **every** package. Not an upsell tier.

#### AI is never metered

Zi runs on our own hardware. No per-message fees, and your students' data never leaves for a third-party AI service.

#### Switching is never a risk

Free assisted migration with a dry-run preview and a one-click safe revert. Trying us costs you nothing.

#### You are never locked in

Data Freedom: take your data out as easily as you brought it in. Your school's records belong to your school.

# Meet Zi — a private AI brain, woven through the whole school.

Most systems store records. Zelarium's AI **reads** them — and tells you which students are slipping, how fees are really tracking, what next term looks like, and even drafts the report-card remarks. It runs on **our own hardware**: zero per-use cost, and your students' data never leaves for a third-party AI service.

## Z-INSIGHTS

### A management brain, in plain language

One live screen of enrolment, fees and attendance — with plain-English takeaways. **For you:** the head walks in knowing what changed, not asking.

## Z-EWS

### Early warning on slipping students

Flags students drifting off-track — per class for teachers, school-wide for management. **For you:** intervene mid-term, not after results.

## Z-COLLECT

### Fee-collection intelligence

Automatic arrears ageing, live collection run-rate, and a dunning preview the bursar approves before anything is sent. **For you:** collect more, chase less.

## Z-FORECAST

### See next term before it arrives

Enrolment and fee-inflow projections with editable per-class assumptions. **For you:** plan staffing and spending on foresight, not hope.

## Z-REPORTS

### AI-drafted report-card remarks

Evidence-linked remarks drafted per child, always reviewed and approved by the teacher before publishing. **For you:** report-card week without the all-nighters.

## AI OCR

### Marks from a photograph

Photograph a marks sheet; Zi proposes the entries, flags low-confidence cells, and the teacher confirms. **For you:** a class's marks in minutes, not evenings.

## Z-NOTIFY+

### Broadcasts & scheduled digests

A school-wide message composer plus scheduled digest reports by email or WhatsApp. **For you:** the whole community informed, on schedule, automatically.

## PRIVATE AI

### On our hardware. Never metered.

Role-gated, guardrailed AI that never invents a figure — running on our own machines at zero per-use cost. **For you:** intelligence as a feature, never a bill.

**26 named AI capabilities** ship inside Zelarium — the full list is in the feature directory overleaf. No leading school platform bundles a working private-AI suite like this; the few that mention AI meter it through the cloud. Here, it's simply part of the platform.

# The complete feature directory — Intelligence, Fees & Finance

56

FEATURES THIS PAGE

Every line below is a real, shipping capability — not a wishlist. Turn on what you need, when you need it: one platform, one login, one price.

## ★ Zelarium AI (Zi) — the complete suite

26 features

- ✓ **Z-EWS** — early warning on slipping students
- ✓ Class-level early-warning view for teachers
- ✓ School-wide early-warning rollout for management
- ✓ **Z-Reports** — AI-drafted report-card remarks
- ✓ Teacher review-and-approve before publishing
- ✓ Evidence-linked AI remarks — no fabricated claims
- ✓ **Z-Insights** — management brain, plain language
- ✓ One-screen live enrolment, fees & attendance
- ✓ **Z-Collect** — fee-collection intelligence
- ✓ Automatic accounts-receivable ageing
- ✓ Live fee-collection run-rate tracking
- ✓ **Z-Forecast** — enrolment projections
- ✓ **Z-Forecast** — fee-inflow projections
- ✓ Editable per-class forecast assumptions
- ✓ **Z-Ask** — plain-English questions on your data **Z-PRIME**
- ✓ Guardrailed answers — never invented numbers
- ✓ OCR mark-entry — photograph a marks sheet
- ✓ Editable AI marks, low-confidence flags
- ✓ **Z-Notify+** — school-wide broadcast composer
- ✓ Scheduled digests by email / WhatsApp
- ✓ Ghana arrears & dunning preview for the bursar
- ✓ Fair, FIFO-matched instalment intelligence
- ✓ AI on our own hardware — zero per-use cost
- ✓ Student data never sent to third-party AI
- ✓ Role-gated AI — follows your access rules
- ✓ Digit-free AI templates — never invent a figure

## Fees & Online Payments

20 features

- ✓ Flexible fee-structure builder
- ✓ Fine slabs for late payment
- ✓ Fee concessions & waivers
- ✓ Concession approval workflow
- ✓ Offline-payment approval workflow
- ✓ Digital fee receipts
- ✓ Online payment via **Mobile Money** (Ghana)
- ✓ Online payment via **UPI** (India)
- ✓ One shared payments engine — any gateway, same plumbing
- ✓ In-page checkout — no redirect to another site
- ✓ Signature-verified, tamper-proof payment capture
- ✓ Instant payment-status updates for parents and staff
- ✓ Front-desk "charge via UPI" counter for walk-ins
- ✓ Dynamic, configurable fee plans †
- ✓ Fairly allocated instalment plans
- ✓ Arrears ledger per family
- ✓ Automated fee-reminder scheduling
- ✓ Fee-dunning preview before anything sends
- ✓ Parent-facing instalment schedule
- ✓ Mobile-Money-mode fee receipts (Ghana)

## Accounting & Finance

10 features

- ✓ Real **double-entry general ledger** under the hood
- ✓ Fees post straight to the books
- ✓ Payroll posts straight to the books
- ✓ Trial-balance-ready accounting
- ✓ Live accounts-receivable ageing
- ✓ Collection-efficiency tracking
- ✓ Outstanding-vs-collected live dashboard
- ✓ Fully auditable financial postings
- ✓ School-wise fee summaries
- ✓ Salary-slip generation

...and that's just this page. 300+ features in total — keep going.

† In final build — real code, real testing, queued for release; included because substantive work exists, never as a bare promise.

# Academics, Examinations, Attendance & Learning

54

FEATURES THIS PAGE

A configurable exam & grading engine — proven on GES (Ghana) and CBSE (India), adaptable to your board — with QR attendance that needs nothing but a phone camera.

## Examinations & Report Cards

20 features

- ✓ Full exam-administration workflow
- ✓ Subject-wise teacher mark-entry
- ✓ Photo-based (OCR) mark entry
- ✓ Observations & co-scholastic recording
- ✓ Behaviour-record capture
- ✓ Weighted result consolidation
- ✓ Validate → build → publish exam workflow
- ✓ Publish-gating — nothing goes out half-checked
- ✓ **GES-format terminal report cards**
- ✓ GES 3-term academic structure built in
- ✓ **30:70** continuous-assessment weighting
- ✓ Automatic **position-in-class** ranking
- ✓ Reporting structure that maps to **NaSIA**
- ✓ CBSE-format marksheet generator
- ✓ CBSE admit-card generator
- ✓ QR-verified marksheets & admit cards
- ✓ Public marksheet authenticity check
- ✓ Board-result trend analytics
- ✓ Rubric-based report-card grading
- ✓ One exam engine, safely aware of GES vs CBSE rules

## Attendance — QR, Biometric & RFID

12 features

- ✓ **QR-code student attendance**
- ✓ Any phone camera — no hardware to buy
- ✓ Biometric attendance support
- ✓ RFID attendance support
- ✓ Daily class attendance
- ✓ Period-wise attendance
- ✓ Full attendance audit trail
- ✓ Teacher geo-tagged self-check-in
- ✓ Staff attendance tracking
- ✓ Staff leave apply/approve workflow
- ✓ Student leave request & approval
- ✓ Absence alerts to parents, automatically

## Academics, Timetable & Lesson Planning

12 features

- ✓ Class & teacher timetable views
- ✓ Visual timetable builder †
- ✓ Automatic substitute-teacher assignment
- ✓ Lesson-plan authoring †
- ✓ Teaching-material sharing †
- ✓ Digital teacher diary †
- ✓ Homework assign-submit-grade loop
- ✓ Photo/PDF homework submission
- ✓ Class-scoped gradebook
- ✓ Gradebook range/validity checks
- ✓ Teacher class-wide announcements
- ✓ Teacher doubts inbox

## Zelarium LMS & Online Classes

10 features

- ✓ **Zelarium LMS** — online courses
- ✓ Online exams / computer-based tests
- ✓ Question-bank driven online tests
- ✓ Live-class meeting-link scheduling
- ✓ Download-centre / e-content library
- ✓ Teacher-authored digital lessons
- ✓ Course-completion tracking
- ✓ Student self-paced learning
- ✓ LMS scores feed the report card
- ✓ One login across ERP and Zelarium LMS

**110 features counted so far — and we're only at the classroom.**

† In final build — real code, real testing, queued for release.

# People, Communication, Admissions & Student Records

69

FEATURES THIS PAGE

Every parent reached where they already are — WhatsApp — and every staff member, applicant and student record managed on the same platform, from first enquiry to payslip.

## Communication, Parent Engagement & Community

23 features

- ✓ WhatsApp fee-reminder alerts \*
- ✓ WhatsApp absence alerts \*
- ✓ WhatsApp result-published alerts \*
- ✓ Template-based WhatsApp (Meta business)
- ✓ In-app circulars & notices
- ✓ Live in-app notification bell
- ✓ 22-event notification trigger engine
- ✓ Parent-teacher two-way chat †
- ✓ PTM (parent-teacher meeting) scheduling †
- ✓ Parent & school surveys †
- ✓ Broadcast announcement composer
- ✓ Scheduled digest emails
- ✓ Opt-in consent controls for messaging
- ✓ Multi-child parent dashboard switcher
- ✓ Parent self-service leave/consent requests
- ✓ Complaint register
- ✓ Call register
- ✓ Dispatch register
- ✓ Alumni directory
- ✓ Alumni events
- ✓ School photo gallery
- ✓ Privacy-checked gallery access
- ✓ Achievements & activities showcase

## HR & Payroll

16 features

- ✓ Staff records & employee lifecycle
- ✓ Staff leave apply/approve workflow
- ✓ Payslip self-service
- ✓ Server-side payroll engine
- ✓ Ghana payroll — SSNIT + PAYE †
- ✓ India payroll — TDS / PF / ESI
- ✓ Accountant sign-off on statutory tables
- ✓ Staff-cost dashboard for management
- ✓ Staff recruitment pipeline
- ✓ Staff training & orientation records
- ✓ Teacher HR self-service
- ✓ Geo-tagged staff check-in
- ✓ Salary-slip print format
- ✓ Confirm-before-live-payroll safeguard
- ✓ Delegated leave-approval permissions
- ✓ Auditable staff-record changes

## Admissions & Enrolment

15 features

- ✓ Public online admission form
- ✓ Spam-protected, rate-limited "Apply" page
- ✓ Admissions enquiry pipeline
- ✓ Admissions-funnel dashboard
- ✓ One-click **Admit & Enrol**
- ✓ Auto Student + Guardian creation on admit
- ✓ Program Enrolment in the same click
- ✓ Applicant-to-student conversion tracking
- ✓ Front-office walk-in enquiry capture
- ✓ Guided Setup Journey for new schools
- ✓ Friendly first-run screen on every module
- ✓ School House & Student Category setup
- ✓ Safe, config-driven school provisioning
- ✓ Clean demo/trial setup and teardown
- ✓ One platform, configurable admissions for any country

## Student Information & Records

15 features

- ✓ Student & guardian profile management
- ✓ Student 360° single-view profile
- ✓ Student timeline with running notes
- ✓ Class & section management
- ✓ Transfer Certificate generation
- ✓ Promotion & academic-history tracking
- ✓ Multi-child guardian linking
- ✓ Student self-service data access
- ✓ Own-data-only privacy scoping for students
- ✓ School House & Category tagging
- ✓ Board-result trend tracking per student
- ✓ Rubric- and competency-based marking
- ✓ Behaviour & observation records
- ✓ Student complaint/feedback trail
- ✓ Teachers see only their own students

**179 features and counting — every one included in the platform, not sold as add-ons.**

\* WhatsApp delivery activates once your business message templates are approved during onboarding — the pipe is built and tested. † In final build — real code, real testing, queued for release.

# Operations, Security, Branding & Analytics

The parts nobody demos but every school depends on — the front desk, the library, the bus, the certificates, and the security that keeps every record safe, private and yours.

## Security, Privacy & Data Sovereignty

19

- ✓ Per-school tenant isolation — one school can never see another's data
- ✓ Automated isolation & access-control test suite behind every release
- ✓ Own-child/own-student data scoping for parents and students
- ✓ Restricted service-key write access
- ✓ Nightly encrypted backups
- ✓ Verified backup-restore drill on real data
- ✓ TLS-encrypted data in transit, everywhere
- ✓ Idempotent financial postings — no double-charge on retry
- ✓ Signature-verified payment webhooks
- ✓ Rate-limited public forms
- ✓ Self-hosted bot-protection captcha
- ✓ Least-privilege access keys per role
- ✓ Self-hosted deployment on your own infrastructure
- ✓ Local-AI-only PII policy — student data never leaves for AI
- ✓ Dedicated per-school hosting
- ✓ Automatic TLS certificate renewal
- ✓ Near-real-time backup recovery point
- ✓ Minutes-level backup recovery time
- ✓ Safe-provisioning guardrails against accidental data loss

## Library, Inventory & Hostel

13

- ✓ Book catalogue management
- ✓ Member & issue tracking
- ✓ Due-date & renewal tracking
- ✓ Library fine calculation & collection
- ✓ Borrow-history per student
- ✓ Stock & store management
- ✓ Purchase/procurement tracking
- ✓ Student-wise item issue
- ✓ Inventory reconciliation
- ✓ Asset tagging
- ✓ Hostel room allocation †
- ✓ Hostel capacity checks †
- ✓ Hostel occupancy dashboard †

## Branding & White-label

11

- ✓ Fully de-branded platform — zero vendor branding anywhere
- ✓ Per-school branded home page
- ✓ Per-school branded login page
- ✓ 5 professional site templates to choose from
- ✓ Live template preview before you publish
- ✓ Your own subdomain
- ✓ Branded public school website
- ✓ Full white-label on the flagship tier — your brand everywhere, ours nowhere
- ✓ School-colour-matched module tiles
- ✓ Custom letterhead on generated documents
- ✓ Branded print formats — receipts, report cards, certificates

## Reports & Analytics

11

- ✓ Management overview dashboard
- ✓ Live enrolment / fees / attendance / exam snapshot on one screen
- ✓ School-wide early-warning analytics
- ✓ Board-result trend analytics
- ✓ Admissions-funnel analytics
- ✓ Staff-cost analytics, gated to senior leadership
- ✓ Fee-collection & ageing analytics
- ✓ Class-wise performance analytics
- ✓ Exportable operational reports
- ✓ Statutory-style compliance reports
- ✓ Role-based reporting access — everyone sees only what their role permits

## Front Office, Visitors & Registers

9

- ✓ Visitor log
- ✓ Gate-pass / in-out pass
- ✓ Staff/student early-leave pass
- ✓ Complaint register at the front desk
- ✓ Call register at the front desk
- ✓ Dispatch register at the front desk
- ✓ Least-privilege front-desk access — clerk logins can't touch what they shouldn't
- ✓ Streamlined front-desk counter workflow
- ✓ Walk-in enquiry intake

## Certificates, ID Cards & Documents

7

- ✓ Certificate register
- ✓ Board-format certificate templates
- ✓ Bulk certificate printing
- ✓ ID-card designer
- ✓ Bulk ID-card printing
- ✓ Transfer Certificate template
- ✓ Admission-letter template

## Transport & Bus-GPS

7

- ✓ Live bus-location map for parents
- ✓ Fleet view for transport administrators
- ✓ Route management
- ✓ SOS alert testing (restricted to senior staff)
- ✓ Transport self-service for admin staff
- ✓ Bus-route assignment per student
- ✓ Ready to switch on real GPS-tracker hardware when you want live device tracking

256 features across these four pages — plus 36 more on the Migration and Mobile Apps pages ahead. 300+ in total, on one platform, at one price.

† In final build — real code, real testing, queued for release.

# Freshly shipped — on top of the 300+ you already saw.

18

NEW CAPABILITIES

Latest capabilities — everything below has shipped and is live in the product today, real and tested, already included in your subscription. Nothing here is a roadmap promise.

## Fees & Online Payments

2 features

- ✓ **Quick Fees** — raise a one-off, ad-hoc fee for any student in seconds
- ✓ Reconciles straight into the same fee ledger & ageing — no separate register to manage

## Live Classes — Zoom & Google Meet

4 features

- ✓ Schedule an online class tied to a class-section, just like a period
- ✓ Teachers start the session with one click from their portal
- ✓ Parents and students join from their own portal — no link-hunting
- ✓ Automatic attendance & join logs for every live class

## CBSE Examinations — new depth

4 features

- ✓ Per-subject exam schedule — date, time & room, published to staff and students
- ✓ Batch marksheet printing across a class or section in one run
- ✓ Subject-marks & template reports, ready for the board file
- ✓ Multi-signatory marksheets — Class Teacher, Exam Coordinator, Principal, one document

## Behaviour Records

3 features

- ✓ Log incidents with a points system — positive and corrective, side by side
- ✓ Class, section & house behaviour-rank reports
- ✓ A running, evidence-linked behaviour trail per student

## Operations, Branding & Analytics

5 features

- ✓ **Multi-Branch combined reports** — one owner view across every branch
- ✓ Collections, income, expense, payroll & user activity, rolled up and currency-aware
- ✓ **Configurable public website builder** (Front CMS) — pages, news, gallery, banners & menus, edited in-app, live
- ✓ **Editable Roles & Permissions** — build any role, per-screen view/add/edit/delete
- ✓ **English · Twi · Français** today — a locale engine where the whole interface follows the language, not just the menus, with more languages configurable

Same platform, same login, same price — **these just shipped in, free.**

# Coming Soon — built for the Middle East.

IN ACTIVE DEVELOPMENT

Zelarium is expanding to the Gulf. In active development for Dubai and the wider region — not yet shipped, shown here so you can plan around it.

SOON

**Arabic + full RTL**  
A first-class right-to-left interface, not a bolted-on overlay — bilingual Arabic/English report cards, circulars and parent-app notifications.

SOON

**Curriculum-agnostic academic core**  
Pluggable grading & report-card frameworks for British (KS/GCSE/A-Level), US (GPA/credits), IB (MYP/DP) and UAE MoE, alongside GES & CBSE.

SOON

**KHDA-ready compliance**  
Arabic, Islamic Education, UAE Social Studies & Moral Education modelled as configurable curriculum metadata.

SOON

**Hijri calendar overlay**  
The Islamic calendar alongside Gregorian, with a yearly mechanism to confirm Islamic-holiday dates.

SOON

**UAE finance & payroll**  
VAT-aware invoicing, WPS payroll (SIF files) and end-of-service gratuity.

SOON

**Regional payment gateways**  
Online fee collection in AED via Telr, PayTabs, Network International and more.

SOON

**Regulator data exports**  
KHDA / ADEK / SPEA e-SIS reporting formats for Dubai, Abu Dhabi and Sharjah.

SOON

**In-region data residency**  
Hosted in Gulf-based data centres so student data stays in-region for local data-privacy — with a private AI, never shared to third-party services.

SOON

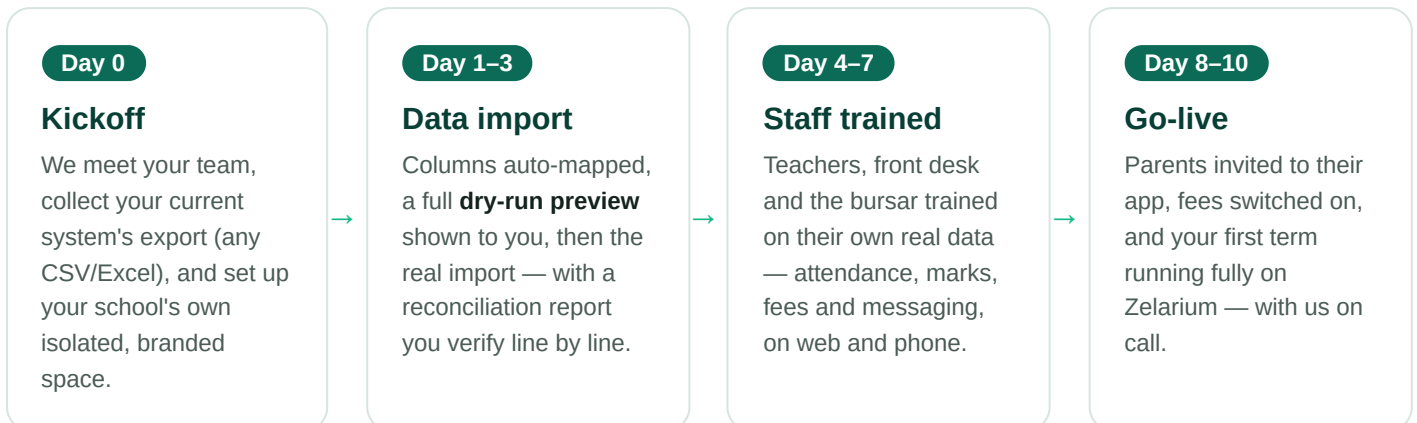

**Ramadan & prayer-aware scheduling**  
Timetables that adjust for Ramadan hours and are aware of prayer times.

Building for the Gulf — talk to us about a Dubai pilot.

# We move you for **free** — and you can undo it with one click.

The biggest fear in changing systems isn't the software — it's the data. So we made migration a product, not a project: upload your export from any system — **Excel, Smart School, any ERP** — and we map it, dry-run it, import it, reconcile it, and can safely revert the whole thing in one click if anything looks wrong. Switching is a solved risk.

## DAY 0 → DAY 10 — FROM KICKOFF TO GO-LIVE

## Migration Studio — a whole destination for your data's journey

A dedicated self-service studio where your import lives: upload, auto-map, dry-run, reconcile, and — if you ever need it — the one-click safe revert. Every migration is batch-tagged and fully reversible, so trying Zelarium genuinely costs you nothing.

[migrate.zelariumerp.ai](https://migrate.zelariumerp.ai)

## Migration & Onboarding — every capability

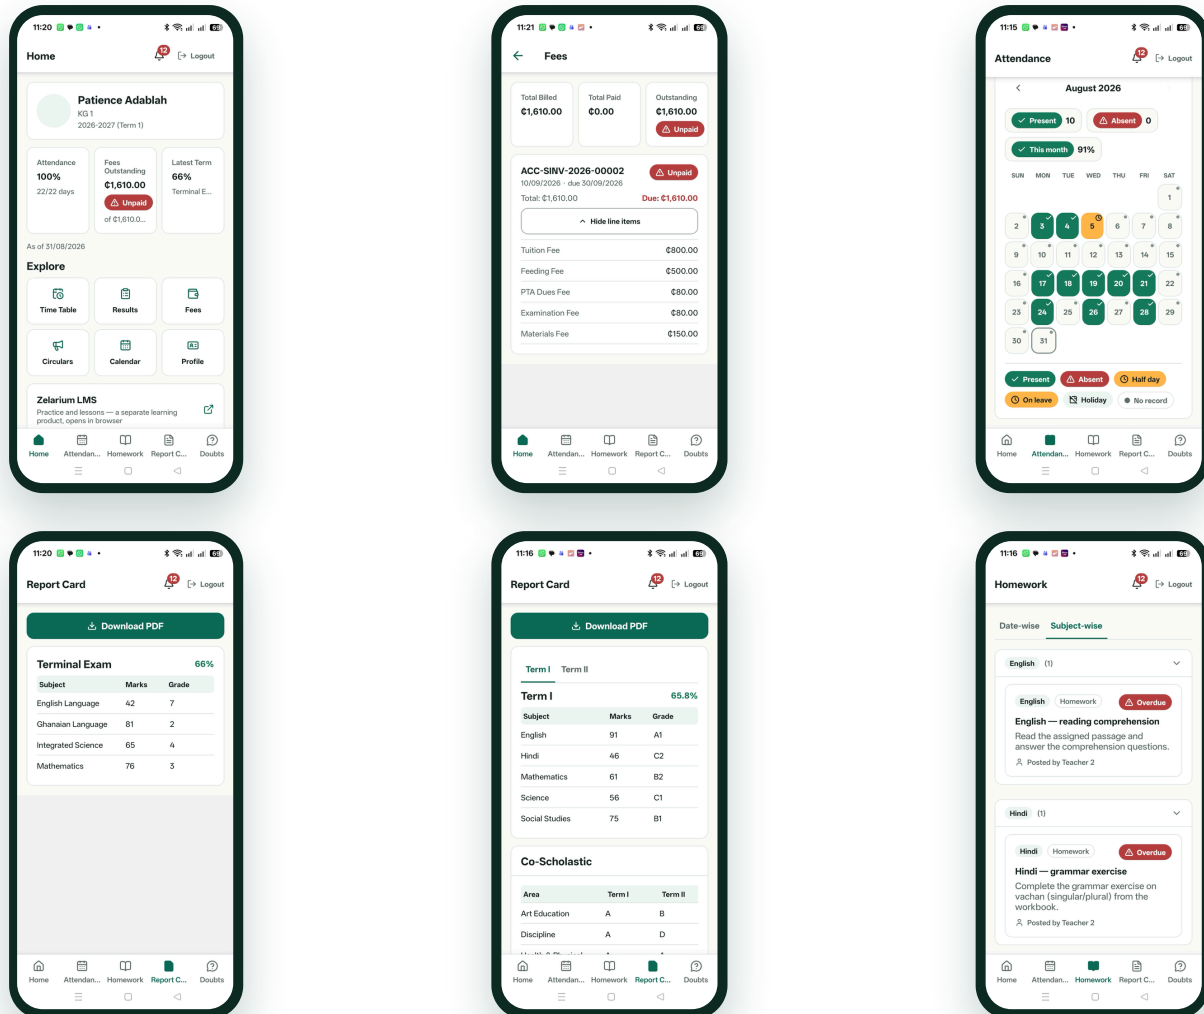

14 features

- ✓ Import from **any ERP** — CSV/Excel, no fixed format required
- ✓ A direct Smart School export connector
- ✓ Automatic column mapping
- ✓ **Dry-run preview** before anything is committed
- ✓ Idempotent import — re-running never creates duplicate rows
- ✓ Import reconciliation report
- ✓ Flagged/skipped-row error reporting, with reasons
- ✓ **One-click safe import revert**
- ✓ Batch-tagged, fully reversible migrations
- ✓ **Data Freedom** — take your data out as easily as you brought it in
- ✓ Free assisted migration at onboarding
- ✓ Guided, country-aware setup journey
- ✓ Live setup-progress tracker
- ✓ In-app setup checklist

**Free. Previewed. Reversible.** Nobody else demos a migration undo button live — ask us to show you.

# Four apps. Every role. Every package.

Everything you can do on the web, your community can do on a phone — and mobile is never a paid extra here. One login works across the ERP, [Zelarium LMS](#) and every app, with updates delivered same-day over the air.

## Portals & Mobile Apps — every capability

22 features

- ✓ Management web portal
- ✓ Teacher web portal
- ✓ Parent web portal
- ✓ Student web portal
- ✓ Parent mobile app
- ✓ Teacher mobile app
- ✓ Student mobile app
- ✓ Self-hosted over-the-air (OTA) app updates
- ✓ Same-day feature delivery — no app-store wait
- ✓ Persistent sidebar navigation
- ✓ Command-palette (⌘K) quick search
- ✓ Class-context aware teacher navigation
- ✓ Secure token-based login
- ✓ Role-based dashboards on every portal
- ✓ Multi-child switcher on mobile
- ✓ Homework/classwork feed on mobile
- ✓ Timetable view on mobile
- ✓ Results view on mobile
- ✓ Fee-receipt download on mobile
- ✓ Profile management on mobile
- ✓ Attendance view on mobile
- ✓ Calendar & events view on mobile

## Three simple packages. All the apps, in all of them.

MOST SCHOOLS CHOOSE THIS

### Z-Start

RUN THE SCHOOL

#### Contact us

per student / year — pricing set with you

- ✓ **Admissions** — online apply, enquiry pipeline, one-click Admit & Enrol
- ✓ **Student records** — profiles, 360° view, classes, TCs
- ✓ **QR attendance** — any phone camera, no hardware
- ✓ **Exams — report cards** — configurable grading (GES & CBSE proven), QR-verified
- ✓ **Fees** — structures, fines, concessions, Mobile Money, UPI, cards & gateways, receipts
- ✓ **Homework loop** — assign, submit, grade
- ✓ **Circulars, notices & WhatsApp parent reach\***
- ✓ **Library, certificates & ID cards**
- ✓ **Front office** — visitors, complaint/call registers
- ✓ **Standard operational & statutory-style reports**
- ✓ **All 4 web portals + all 4 mobile apps**

### Z-Pro

RUN THE WHOLE INSTITUTION

#### Contact us

per student / year — pricing set with you

- ✓ **Everything in Z-Start**, plus:
- ✓ **HR & payroll** — staff records, leave, payslips, server-side payroll
- ✓ **Real double-entry accounting** — fees & payroll post to the ledger
- ✓ **Fee intelligence** — arrears ageing, run-rate, instalments & dunning
- ✓ **Migration Studio** — dry-run import + one-click safe revert
- ✓ **Branded school website** — 5 templates, your subdomain
- ✓ **Management dashboards** — enrolment, fees, attendance, exams live
- ✓ **Transport** — routes, fleet view, live map
- ✓ **Hostel & inventory** — allocation, stores, stock
- ✓ **Alumni directory & events**, photo gallery

### Z-Prime

RUN IT INTELLIGENTLY

#### Contact us

per student / year — pricing set with you

- ✓ **Everything in Z-Pro**, plus:
- ✓ **Zi — the full AI suite, private & never metered:**
- ✓ **Z-EWS early-warning on slipping students**
- ✓ **Z-Reports — AI-drafted, teacher-approved remarks**
- ✓ **Z-Insights — the management brain**
- ✓ **Z-Collect fee intelligence & Z-Forecast projections**
- ✓ **Z-Ask — ask your school anything in plain English**
- ✓ **Ghana statutory payroll — SSNIT + PAYE†**
- ✓ **Multi-branch** — campuses on one platform
- ✓ **Full white-label** — your brand everywhere, ours nowhere
- ✓ **Priority support** — named contact, term-start on-call

Every plan includes all four web portals + all four mobile apps, curriculum-correct academics (GES & CBSE proven), unlimited users, nightly backups with a proven restore — and free assisted migration.

#### Data isolation

Each school in its own space — enforced & test-proven

#### Private AI

On our hardware — student data never leaves

#### Nightly backups

Encrypted, with a proven restore drill

#### Data Freedom

Take your data out as easily as you brought it in

#### Local support

Real people, on call — not a foreign ticket queue

## Book a free demo — or a pilot term on your own data.

We migrate you on free, you run a full term on your school's real data, and then you decide. 300+ features, AI built in, all four apps, one honest price — easy on the pocket.

**Book a free demo**

zelariumerp.ai

\* WhatsApp delivery activates once your message templates are approved during onboarding. † Statutory tables are configured and signed off with your accountant at onboarding — standard for any payroll go-live.
